0.5 ml Deep Well Plate

0.5 ml Deep Well Plate

- > 96 Well Plate polypropylene
- > Round bottom wells
- > 0.5 ml volume when capped
- > Autoclavable
- > Raised rims for efficient sealing and reduced risk of cross-contamination
- > Fits magnetic separation devices
- > SBS footprint for robotic handling
- > Alpha-numeric grid

0.5 ml Deep Well Plates

Catalogue No.	Product	Unit
96.9851.9.01	Deep Well Plate, PP	48
96.9965.9.01	Deep Well Plate, sterile, PP	48
96.9711.9.01	Sealing Mat	50

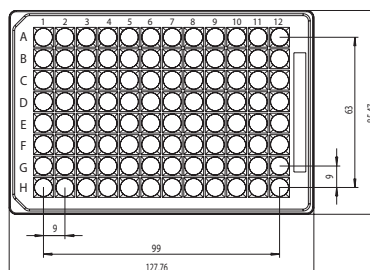

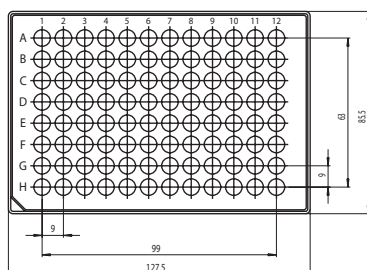

Packaging: Pack of 6 plates, 10 sealing mat/bag

1.2 ml Deep Well Plates

2.2 ml Deep Well Plate

1.2 ml Deep Well Plates

- > 96 Deep Well Plate polystyrene and polypropylene
- > Volume of 1.2 ml (1 ml when capped)
- > Plate made of polypropylene is autoclavable (121°C, 20 min)
- > Alpha-numeric grid for easy sample identification
- > Stackable
- > Compatible with pipetting workstations / multi channel pipettes
- > For blood specimen storage
- > Fitting sealing mat made from thermoplastic elastomer
- > SBS footprint for robotic handling

2.2 ml Deep Well Plate

- > 96 Deep Well Plate polypropylene
- > Square wells, round bottom
- > Volume of 2.2 ml (2 ml when capped)
- > Autoclavable (121°C, 20 min)
- > Alpha-numeric grid for easy sample identification
- > Stackable
- > Compatible with pipetting workstations / multi channel pipettes
- > For enzyme assays and blood specimen storage
- > Fitting sealing mat made from EVA
- > SBS footprint for robotic handling
