

Treff Lab Microtube Racks

Lid locking device for added safety

Stackable

Clipping lid prevents caps from popping

Temperature resistance from -70°C to 121°C

TreffLab Tube Racks, available for 1.5 ml and 0.5 ml tubes, are manufactured from tough polycarbonate. Each rack has a capacity for up to 40 tubes.

Lid-Locking device for increased sample safety.

Its two parts, base and lid, both feature an alpha-numeric grid for easy identification of samples.

The lid is held in place by a locking latch for additional safety.

Temperature resistance of -70°C to +121°C allows for both freezing and autoclaving. TreffLab Tube Racks are stackable for easy storage.
